

In this series of basic doctrines, the next topic covers the personalities of an Absolute Maker. Mankind gives a false balance of their view with God. One side believes him to be a wrathful God demanding cruel penalties upon unbelievers without showing any mercy. The other side believes him to be such a lovey, dovey God permitting everyone to Heaven as the way they are. This study will cover His attributes, which are proven to be completely perfect. Also, they will expose how short mankind truly falls in comparison with such a Balanced Being. The teaching will discuss verses confirming the balance and perfection of God, how man cannot understand God but God can understand man, why God's way is better whenever something bad happens to us, verses showing God can hate people (not just sin), how God loved everyone, explanation of true love from God, how love is not limited to passion, why God is fair for casting people to an eternal Hell, how long can God put up and be merciful with sinful people.
