

The next series of Basic Doctrines cover the deity of Christ. Who is Jesus? Is he just a dead Jew according to secular historians? Is he a myth according to atheists? Is he simply a great teacher according to modernists? Is he a lesser god according to cultists? Is he just an ordinary prophet according to Muslims? The final authority of our faith, the Bible, says that Christ is the Lord God. Many would fervently deny this, but numerous passages show that Jesus is Deity. This teaching will cover why Jesus cannot be a lesser god, Old Testament and New Testament verses plainly revealing Him to be God, answering the skeptics' arguments against the deity of Christ, how God the Father is truly Jesus in human form, and verses that modern bibles corrupt the deity of Christ.
