

In this third part of the series, we will look into further attributes of the Almighty, which display his perfection and balance. The more a person learns about the Lord's attributes, the more he or she can understand His ways and reasons. As mankind sees the personalities of God in His Book, they see how much high and mighty and perfect our Heavenly Father truly is. This study will cover why God has the right to teach us what is right and wrong, why God is fair on his judgments, what God thinks of lost people praying to Him, what can stop God's punishment upon His children, how God is good in two different ways, what makes God's blessings pass from you to your next generations despite of sin, why there is only one truth and everyone else is a lie, how God's greatness is compared to the cost of Solomon's temple, why people should sing loudly to God, why we serve a terrible God, how God existed at the beginning of time, matter, energy, and space, why God had to both die and live, why it is not contradictory in the Bible that God repents and does not repent, how we can believe the existence of God despite of His invisibility.
