

The most hated topic that everyone wants to avoid. This doctrine has been hushed up successfully within multitudes of churches, because it makes the audience feel uncomfortable. If a pastor was to say that you were going to burn in Hell for your sins, you would get offended and leave the building. Nobody enjoys hearing about the eternal torment of their soul. Megachurches literally flourish with thousands of members by ignoring messages on Hell and emphasizing messages on "Christian" comfort. However, if a Christian truly loves the lost, that same individual will warn those precious souls about the agony of Hell and passionately preach the way of salvation. A true friend is one who will attempt to save that person from any danger, even if he or she becomes offended. This study will cover questions such as, "What is the origin of Hell?" "Why did God make Hell for us?" "What is Hell really like?" "Isn't Hell the grave?" "Shouldn't the correct word be Sheol, Hades, or Gehenna, instead of Hell?" "Why is God so cruel to have a soul burn forever?" "Doesn't Hell seem to contradict the love of God?" "Is it true that a soul is going to be annihilated in Hell?"
