

This is a continuation to the most interested topic among Christians today. In the last days of the world, people wonder if the aliens are taking over, global warming is resulting, or if God is really casting down His judgments. The dystopian view of science fiction has dominated throughout the literary works and films of various cultures, but they have different stories to tell on what will happen in the end times. Both saved and lost individuals have been fascinated with how the Bible explains about the era of the Tribulation. In this study, we will cover questions such as, "What will happen with Israel during the Tribulation?" "Are there more verses showing that there is a latter 3^{1/2} years in the Tribulation?" "How can you prove that 1,260 days equals 3^{1/2} years for the Tribulation in the Bible when it really doesn't in our calendar?" "What kind of apocalyptic events and natural catastrophes will occur?" "What are the seven trumpets and seven vials in Revelation?" "Will Satan live on earth as a ruler over mankind at the end times?"
