

That is who we are. The most crowning achievement out of all of God's works is His creation of man. Many have wondered where and why are we humans existing today? The majority have accepted the fantastic notion that humans have originated from evolving processes of matter and energy. But everyone cannot deny deep down inside that there had to be some supernatural Being that created us. The Bible shows that humans originated from the hand and breath of the Lord Almighty. Man was not merely formed by God. He was also made with intelligence, free will, fellowship, tripartite being, and in the image of God. This study will cover questions such as, "How was man exactly created?" "Wasn't woman created similarly?" "What about evolution?" "Is it correct for politicians to say that we are all in the image of God?" "What is a tripartite being?" "Why did God leave the tree of the knowledge of good and evil for Adam?" "Where does the Bible say that the will of man overpowers the will of God?" "Will the body, soul, and spirit of man live immortally?"
