

The third Person in the Trinity is very significant in the life of a saved soul. Without this Part of the Godhead, then we would be lost in confusion and in disarray. Jesus had assured His children that once He leaves them that the Spirit will be the One to take care of us. Although the New Testament covers merely one third of the Bible, it mentions the works of the Holy Ghost more than any other part of the scriptures. In this study we will cover questions such as, "What frees me from the addictive lusts of sin?" "How did salvation under the law become void for me?" "Will the Holy Spirit play a role during the Rapture, or is it only Jesus?" "How can I know the will of God when I honestly do not know what to do?" "How can I have power to make Satan run away from me?" "How can I attain the utmost satisfaction when I feel depressed during my Christian walk?" "Where can I find the right interpretation of the Bible? Through scholars? Or maybe never?" "If I feel like my life is a wreck, where can I get comfort?" "Besides the work on a Christian, what other works does the Holy Spirit do to other people throughout the Bible?"
